**The Caltex StarCard® is an excellent way to efficiently manage your fuel expenses and reduce your running costs.**

We want to give you 4 great reasons to apply for your Caltex StarCard®.

**1. It's Convenient**

**You Get Nationwide Availability**

Caltex StarCard® is accepted at more than 450 Caltex *and* Challenge service stations throughout New Zealand. This includes 140 automated 24-hour Fuel Stops, as well as Star Mart convenience stores. You get convenient access to one of the largest fuel coverage networks in the country, including 24-hour service.

**2. You Take Control**

**You Can Choose Purchase Restrictions**

Caltex StarCard® allows you to determine the type of product or service able to be purchased by each authorised cardholder in your organisation. For example, you can limit usage of each card to fuel only, or allow some cardholders to purchase other items such as lubricants or snacks from the convenience store.

**3. You Get Greater Security**

You choose a unique 4 digit PIN the first time you use your Caltex StarCard®, for increased card security.

**4. It's Great Value for Money**

**You Get a Fuel Discount**

Your Caltex StarCard® offer includes a discount off a '**regional**' pricing structure (which may differ from the **pump** prices within that region), regardless of your location within each respective region. **You pay the regional discounted price or pump price - whichever is lower.**

Product	Regional Price Discount*
Petrol at the Service Station	5.625 cents off regional price per litre
Diesel at the Service Station	5.625 cents off regional price per litre
Diesel at the Diesel Stop	5.625 cents off regional price per litre

\*Discounts include GST. The discounts offered can not be used with any other fuel discount offer.

\*For regional price information please contact Grow Your Business

\*Chevron NZ reserves the right to review and alter the amount of the discounts if Chevron NZ considers it reasonable to do so without limitation, if consumption levels and developments affect the general market price.
